

MAHMOUD KHALED

FULL STACK .NET DEVELOPER

New Cairo

mahmoud.khaled.ict@gmail.com | 01113375134

SUMMARY

I am a student at the National Telecommunication Institute (NCT) in New Cairo. I have strong skills in C, C++, C#, problem-solving, SQL, and Linux. I am currently a trainee at DEPI, actively expanding my expertise in IT, cybersecurity, and full-stack .NET development with a strong focus on C#.

PROFESSIONAL EXPERIENCE

Trainee, DEPI

Jan 2024 - Present

- Gaining hands-on experience in IT, cybersecurity, and full-stack development.
 - Participating in the Digital Egypt Pioneers Initiative (DEPI) for Full Stack Development training.
-

SKILLS

- C, C++, C#
 - .NET Core & ASP.NET
 - SQL & SQL Server
 - Linux
 - Full Stack Development
 - Problem-Solving
 - Cybersecurity Fundamentals
-

PROJECTS

Full Stack .NET Development Projects

- Developing foundational knowledge in web applications using .NET Core and C#.
- Learning and applying database design principles using SQL Server.
- Exploring authentication and authorization techniques in .NET applications.

IT and Cybersecurity Projects

- Studying and implementing security solutions for network protection.
- Creating and managing database systems using SQL for efficient data handling.

EDUCATION

New Cairo Technological University (NCTU), New Cairo

Ongoing Studies in IT, Cybersecurity, and Full Stack Development

Relevant coursework: Networking, Programming, Security, and Web Development with C# and .NET.

ADDITIONAL INFORMATION

Languages: Arabic, English

Certifications: CCNA (CLS Learn)

Interests: Full Stack .NET Development, Cybersecurity, Software Architecture, Networking
